KOFF!
Miss Tabitha! Thank God you're here!

Oh no, not Mia. It looks like her fever has taken a turn for the worse.

What happened here? Where's Tuff?
Mia had fallen behind the group and collapsed.

I tried to move her, but I'm not strong enough.
There there, you did just fine by staying with her.

But what do we do now? They can't go on their own.
But can we spare someone to--

Down! All of you get down right now!
Raven? What's going on?
I can feel them coming! If you want to live, GET DOWN!

This is really a fascinating place.
We're almost there Captain.
Excellent, I must see this book.

Are you sure you can read the book?
Once it has recognized me, it will let me read it.
Because if you can't, I will destroy it.
I don't think it will come to that Captain.
But if it does, I am prepared.
I think they're gone.
We need to catch up with them!
But we need to get the girls to safety.
Well then let's hurry and get them safe!
Maybe if we do it fast enough--
Uncle? Is that you? Who's down there?
COUGH! HACK!
W-what?!

I-i, st-sto-
W-what-
It's another Raven! I'll take care of this one.
Wait! If it warns the others, they'll hurt the kids. I remember this one.
S-stay back!
Knull, where are you? Did you find something?
You're not trying to escape are you?
Knull, right? You hate him as much as we do.
Please, don't say anything.
Even if you are my nephew, I will count escape as a treason against The Raven.
You know what I do to traitors Knull.
Sorry uncle, I guess I got a little lost, it's nothing.
Ha! I'm sure it was. Hurry up you coward.

Phew! I wasn't sure that would work.
Are you insane!? What did you think you were doing?!
I could tell he didn't want to hurt anybody.
And what if he did? You can't read minds.
No I can't, but I can still see good in a person; call it a gift.
More like a curse! He could have killed you!
But he didn't! I think there's still a chance for him if--
ROAR!
Will you two behave yourselves?! You're both on the same side, so start acting like it!
Now listen, these girls are too vulnerable to go on their own.
One of us needs to take them to the main group of girls.

Well, Credenza's the least experienced fighter...
What?! I can fight just fine.
Despite her inexperience, she has Dragonfly's necklace.
Credenza is the closest tie we have to the book, we'll need her.
I'll take the girls, they know me.
But we need your help to navigate the abbey.
Well what about Raven?
What?
Mmm... Nah.
Hey! I could do it if I wanted to!
It's dangerous to be splitting our group up like this in the first place.
I know it is, but who else is there to take the girls?
FLUSH!
BAM!
Oh man, that is the last time I have six glasses of water before I go to bed.
Feels like I've been in there for HOURS! Why do these little buttons have to be so tricky? I can never....
What? Do I have toilet paper stuck to me?
HAHAHA!
I can't believe it! No way!
Hahaha! Oh, yes way!

AAAIIIIEEEEEE!
My face! You cut my face you ^*&% ^#&$#*&#$&$#"!
Girls, run! Get out of here!
Eep!
The girls are safe. I suggest you make a hasty retreat, before I am forced to beat your scheming head in.
HEHEHEHEH
HAHAHAHAHA
What exactly do you find so funny?
Myself, fishman. Only myself.
I have under-estimated you, and allowed you to scar my beautiful face.
But don't worry, I can fix it right away.

That's not going to scare me. Try to hurt those girls again and I'll cut you where it won't grow back.
Mmm, that's much better.
Ooh, vicious.
Already resorting to hurling petty insults?
For all you know I could have been trying to protect those children, after all...
I think they'd be in more danger from a were-shark than from little old me.
Now who's throwing petty insults? Don't bother, I've heard them all.
Though how did you know I'm-
Wha?... Where did he-
We Face-changers learn to read people like books.
Your book is short, and it has a very sad ending.

SLICE!
Quick, shark-man, veery quick...
BUT NOT QUICK ENOUGH!
THUNK!
SNAP!
DASH!
WRAP
OINK!
Is that all? And I thought this would be difficult.

Face it shark-man, I am your superior in... well, everything.
This really isn't your fight is it? You have no vendetta against Raven.
It would be a shame to lose a fighter like you.
But there is a way out of this, if you are willing to listen.
How's about *you*... start working for *us*.
NO WAY!
I'd never work for a slimeball like you!
You sure? The Raven will pay you for your service.
I don't care about any money, I won't hurt my friends.
Oh, The Raven can give you things much more valuable than money.
I mean, just look at me! Power, youth, beauty. I have it all. He could even change your body.
He can make it so you're a full were-shark, not some half-breed.
Like I would want that? I'm always trying to FIGHT my sharkblood, not embrace it!
I understand, no one wants to be a monster... but what about a human?
Human? You could... what?
Ah, finally, we see what it is you truly want.
If you work for us, Raven could make it happen. He could make you human.

-so I ate it. And that was the last time we ever tried to play polo.
Thanks again for this, Mr.Luck.
Mr.Riley, hurry! I think Mr.Tuff is in trouble!
An effeminate gentleman seems to be menacing him with a knife.
Oh man, I hate it when that happens.
We have to be quick about this.
You will regret turning me down sharkman.
It would have been much easier to have you working for us of your free will.
As things stand, we're going to have to do this the hard way.
As difficult as forcing your obedience is, we can't just let you go.
